

## Cookies and Cache's clearing method on Edge.

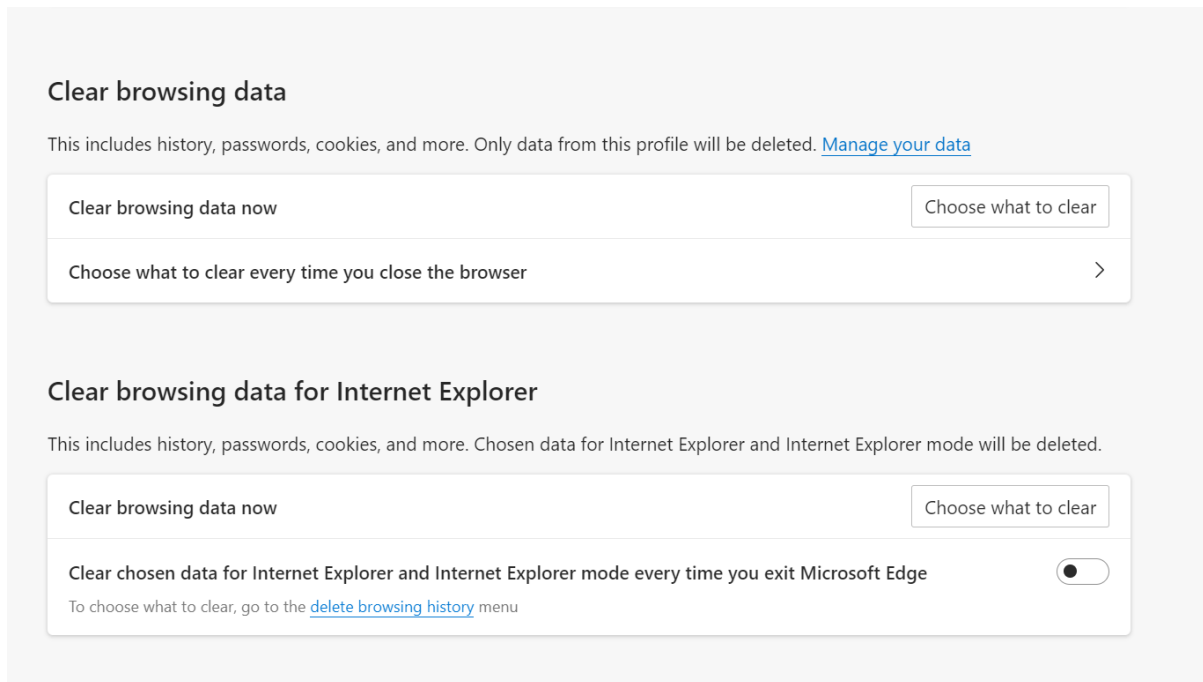

select **Settings** in the upper right corner of browser window by clicking **Three dots** in the right corner of the window.

In select **Settings**, click **Privacy**, search, and services option

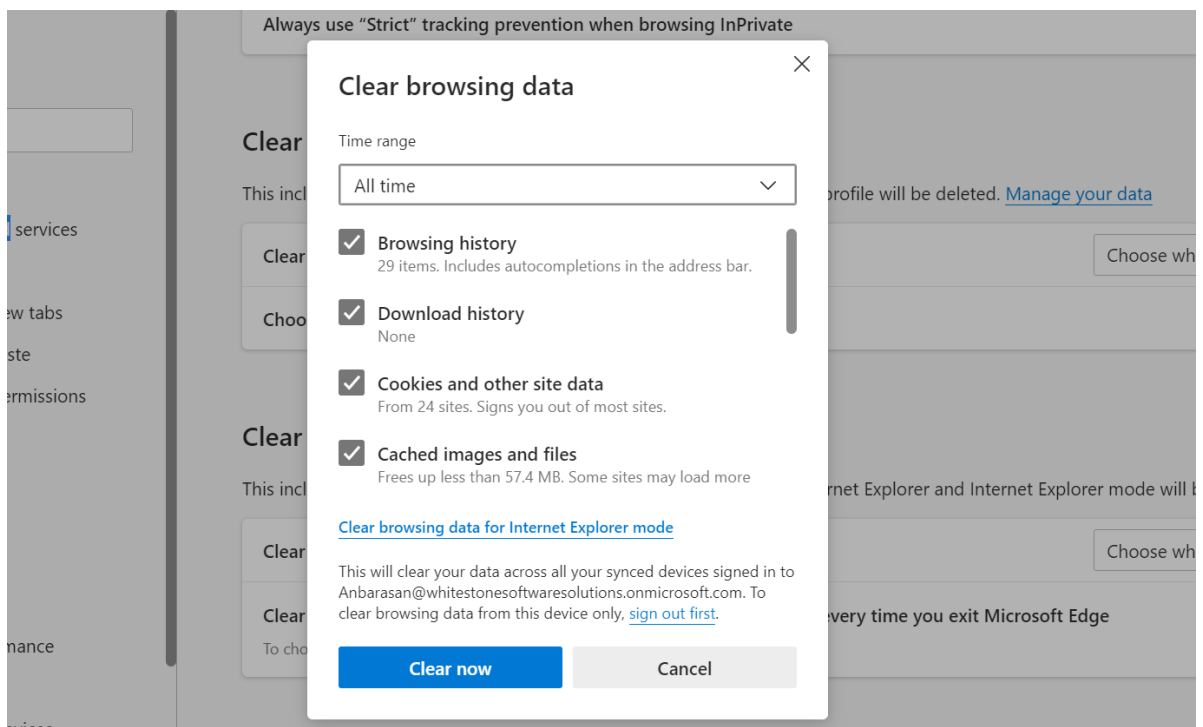

Select **Choose what to clear** under **Clear browsing data now** option.

Under Time range, choose All Time option, then select Browsing history, Download history, Cookies and other site data, Cached images and files.

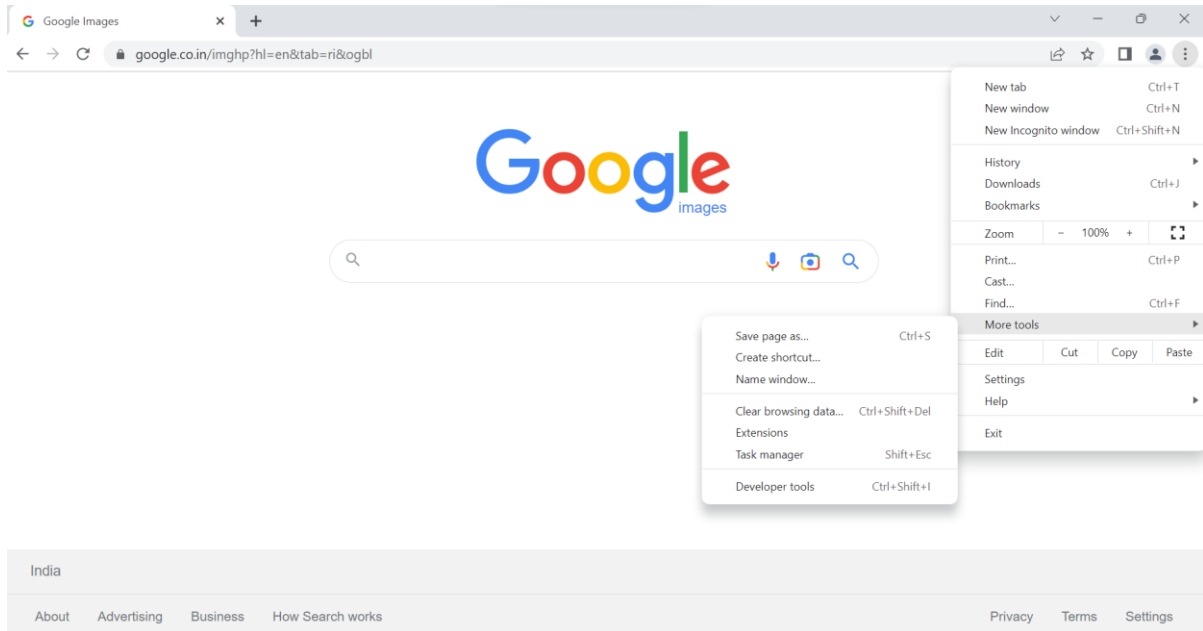

After that click **clear now** option.

## Cookies and Cache's clearing method on Chrome

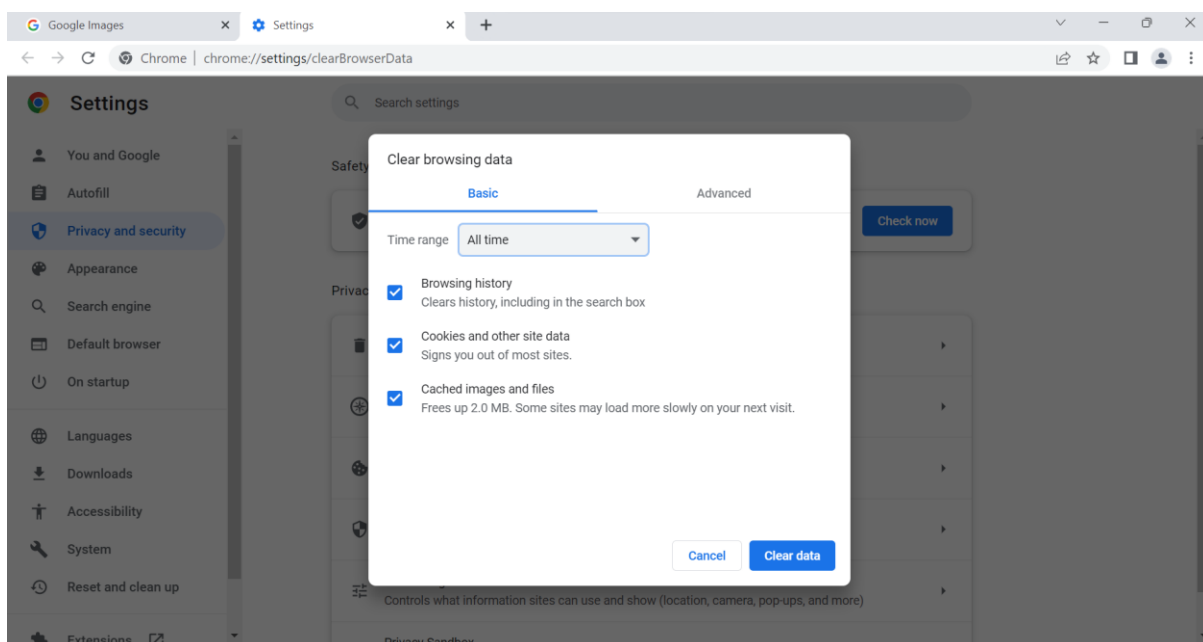

Click **three dots** tab in the right corner.

Then select **More tools**, then click **Clear Browsing Data**.

In **Time Range**, choose All Time and select Browsing History, Cookies and Other Site Data, Cached Images and Files.

Then click **Clear Data** option.

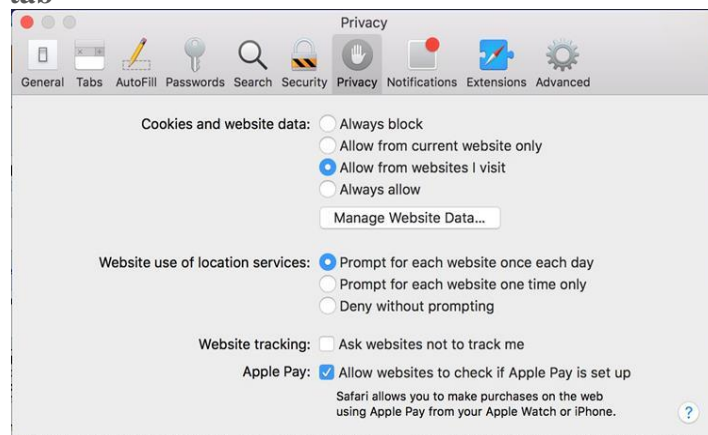

## Clear Cache and Cookies in Safari

If you are using Safari on Mac, you can use the built-in functionality to clear the cookies and cache.

Open the Safari browser. Click on **Safari** in the menu bar and open Preferences

Select the **Privacy** tab

Click on **Manage Website Data**

Click Remove All, and then confirm it by clicking on **Remove Now** in the next dialogue box
